Laboratory Support of Pain Management

Edited by Drs. Paul Jannetto and Loralie Langman

Seeking submission in the following areas:

- ▶ Role of point-of-care and physician operated labs in pain management testing.
- ▶ Role of alternate matrices in pain management testing.
- ▶ Role of medical marijuana testing and use in pain management treatment
- ▶ Scope of testing for pain management: Clinical utility of NPS and other designer drugs.
- ▶ Economics and clinical utility of pain management testing.
- ▶ Role of genetic testing in pain management patients.
- ▶ Analytical considerations for pain management testing.

The Journal of Applied Laboratory Medicine (JALM) is pleased to announce an upcoming special issue titled "Using Clinical Laboratory Tests to Monitor Drug Therapy in Pain Management Patients." This issue will include articles on clinical practice trends, the utility of specimen validity testing, the economics for pain management testing, and will highlight the technical and clinical challenges associated with lab testing.

Be a part of *JALM's* first special issue

**Submission must
be received at
submit.jalm.org**
